

## Mix and Match Storage Pockets

There are several colors of pockets to choose from over the next few pages to store the ABC's in. You will need to print 9 (eight pockets will store three cards each and one pocket will store two cards).

Mix and match or use all of one color. In addition, for those who do not desire so much color or that want to use a different patterned paper, there is a blank pocket.
