

BEFORE YOU PRINT

Note: Because we have children on different levels and because some may be limited on time to do this unit--there are FOUR options in this download to print this "ONE" book.

1st book has color title page and is blank (page 2)

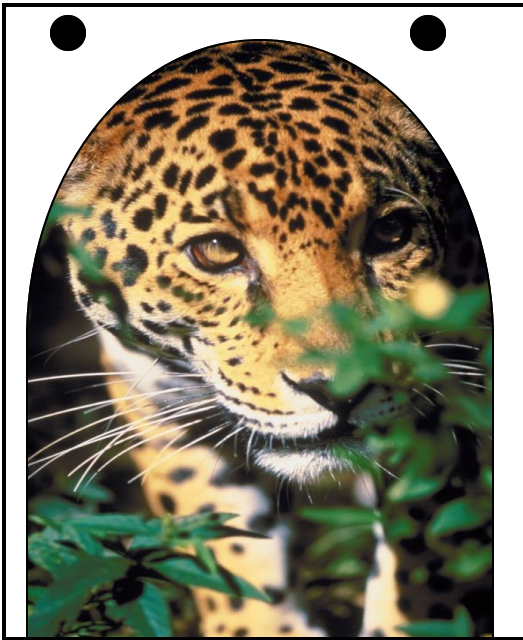

2nd book has color title page and lines for younger children (page 3)

3rd book has color title page and lines for an older child (page 4).

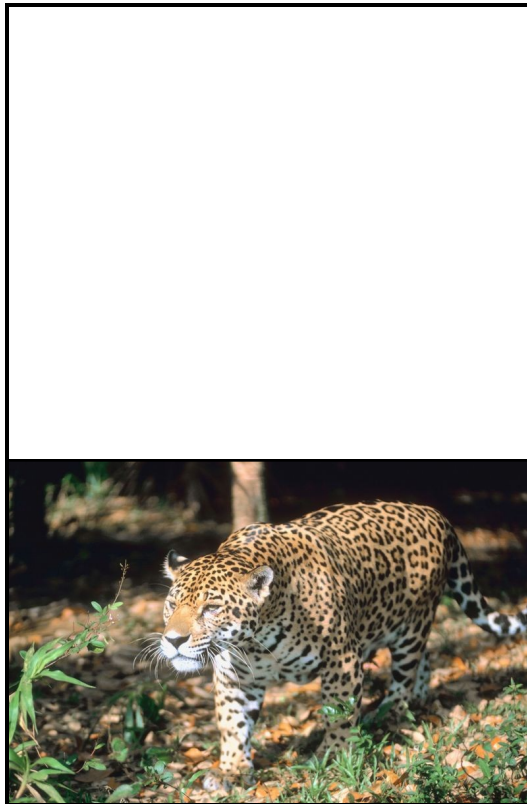

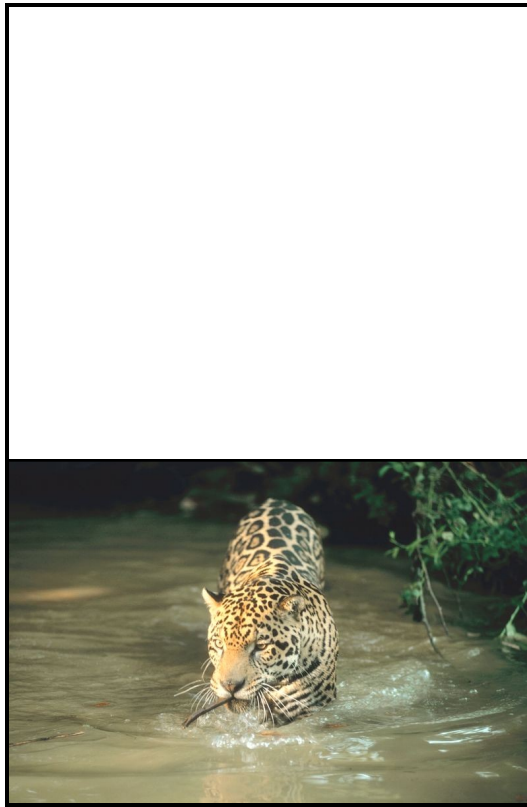

4th book has turquoise title page and lines for an older child (page 5).

Note: All clipart is kept in color as we feel there is no way our child can capture the beauty of the King of the Rainforest in black and white.

Cut book or books of your choice, place title on top and the rest of the pages in any order. Use brads on title page on black circles indicated.
