

Job 26:7

Is there evidence that the Bible is scientifically accurate?

The Bible was not swayed by the unscientific views existing at the time of it's writing.

Finally, in 1687, Sir Isaac Newton published his findings that the earth was held in space in relation to other heavenly objects by gravity.

However, the Bible's inspired writing was approximately three thousand years prior to Sir Isaac Newton.

“He is stretching out the north over the empty place,
Hanging the earth upon nothing”
