

Fall

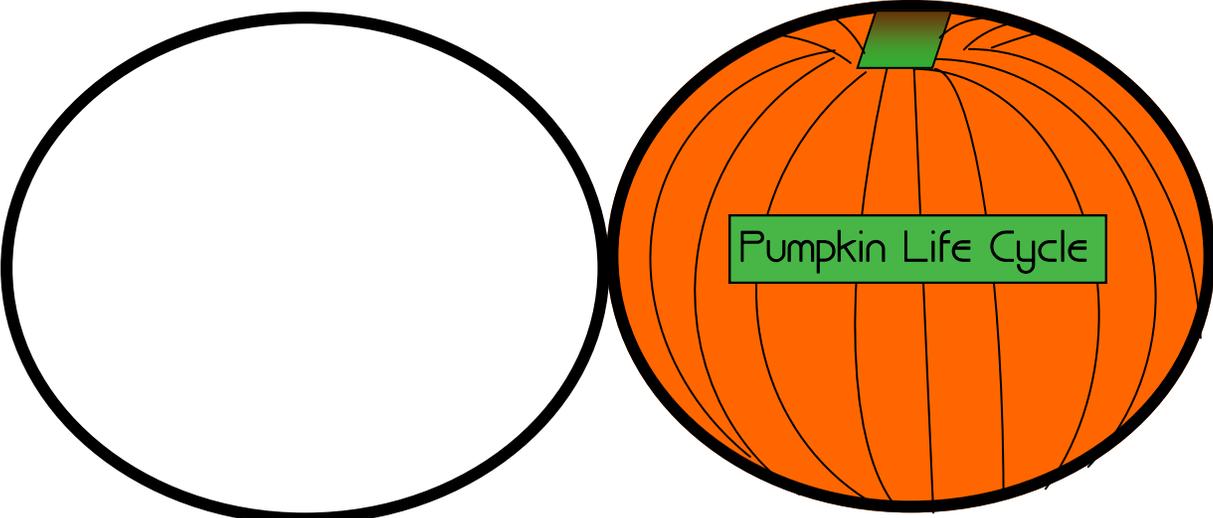

My target age: 4yo to 8yo

I used brown cardstock, but you can use a regular letter size file folder.

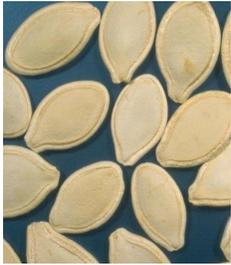

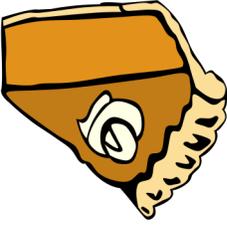

Print on white cardstock.

Print on regular paper.

Page 1

Page 4

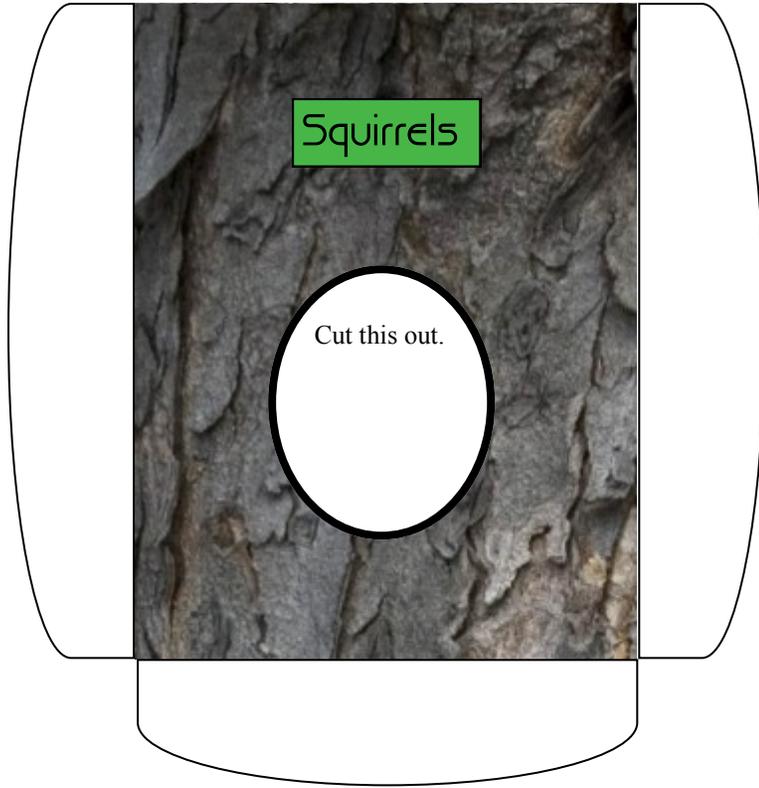

By _____	 Seed	 Vine	 Flower
 Pumpkin Bread	 Pumpkin Pie	 Orange Pumpkin	 Green Pumpkin

Page 8

Page 5

Cut on outside lines, except for the middle. Be sure to cut through the solid middle line but don't cut all the way through. Then fold accordion style by folding Page 1 OVER, then back, etc. When you get to the end or Page 4, fold that page UNDER page 5. Then accordion fold to page 8. Glue the book to one of the pages inside of your pumpkin cover.

Print on white cardstock.

Cut on outside lines.

Next cut away your hole for the squirrel.

**Tip:** For cutting out the hole in the middle of the pocket, fold the pocket vertically in half with the color part of the pocket **out**. You will now have an edge to start cutting from and will see the line to cut on. It will look like this:

Cut here for hole  
and follow line  
around.

Squirrels build nests called "dreys" or "dens". Here is my squirrel's nest made of twigs and leaves.

Look at my squirrels big tail. He uses his tail to help him keep his balance.

This is a picture of my favorite squirrel.

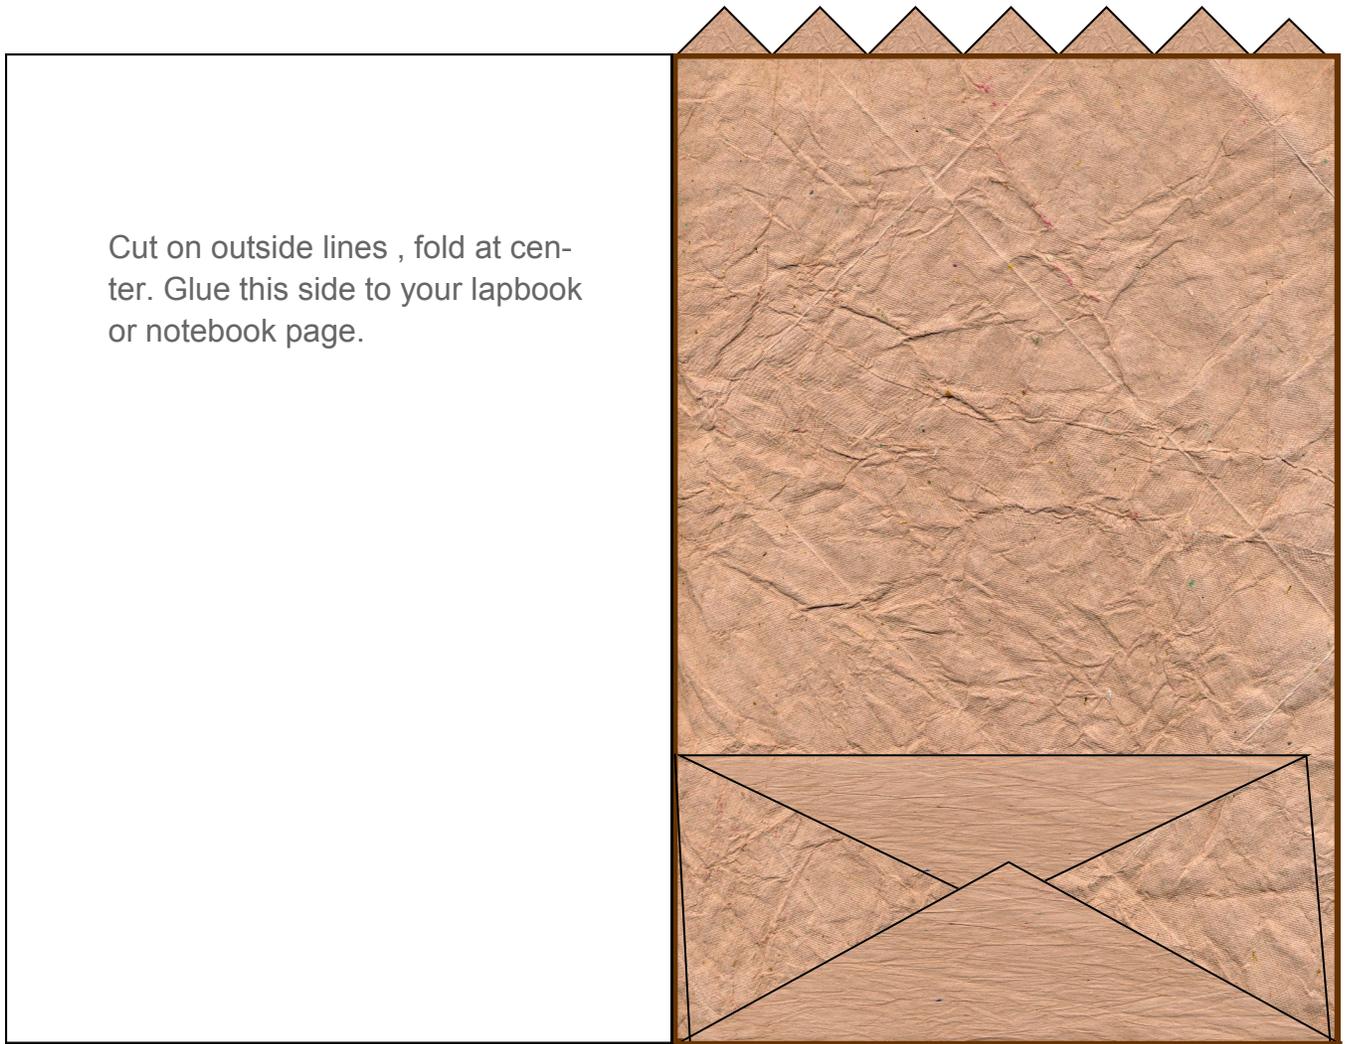

Squirrels chew on tree branches like this to sharpen and clean their teeth.

Most squirrels eat nuts, seeds, grain and fruit.

After your child illustrates the story, cut out on outside lines.

Be sure to cut through the solid middle line but don't cut all the way through. Then fold accordion style by folding Page 1 **BACK**, not over like you did in the pumpkin book. Then continue accordion fold. When you get to the end or Page 4, fold that page **UNDER** page 5. Then accordion fold to page 8. Then place your squirrel in his tree trunk :o)

Print on white cardstock.

Print on regular paper.

Pomegranate

Corn

Apples

Pumpkins

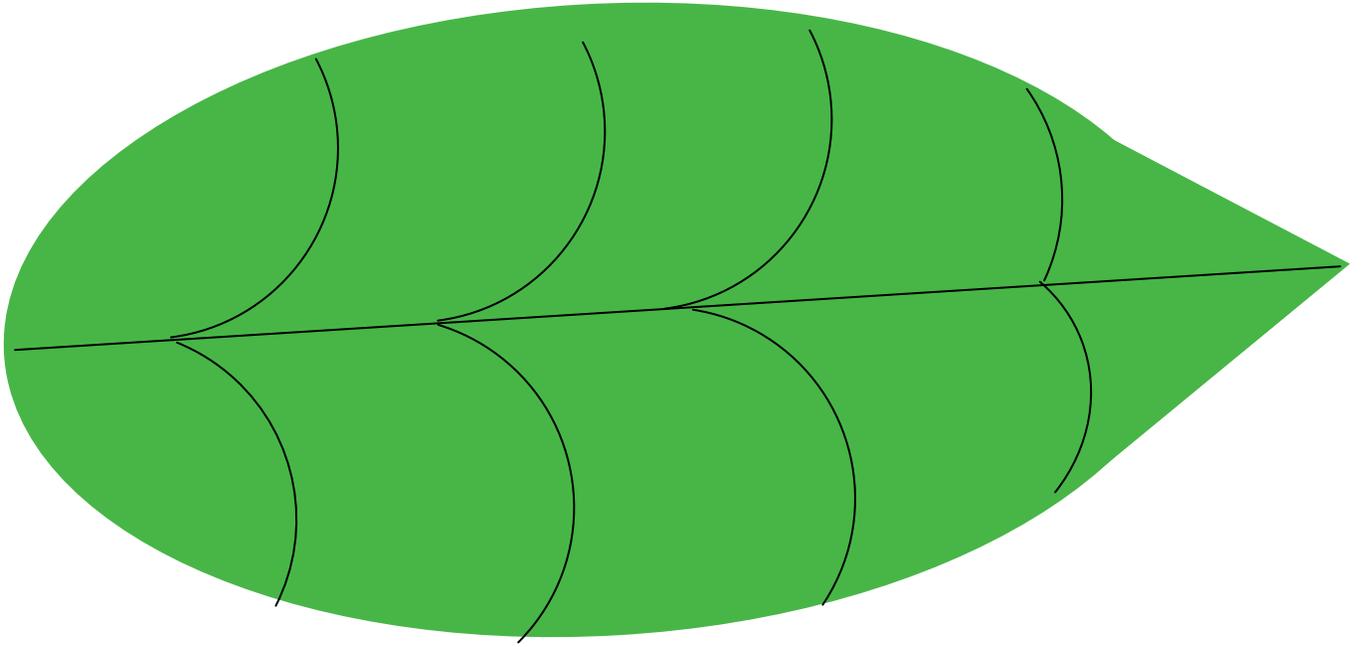

Squash

Pummelo

Glue your fresh fall fruit and vegetables to the inside of your produce bag.

Print this cover on white cardstock

Print on regular paper unless you prefer to add their thumb prints here. My son used his thumb and some of the leaves on the inside are his thumb we made into leaves.

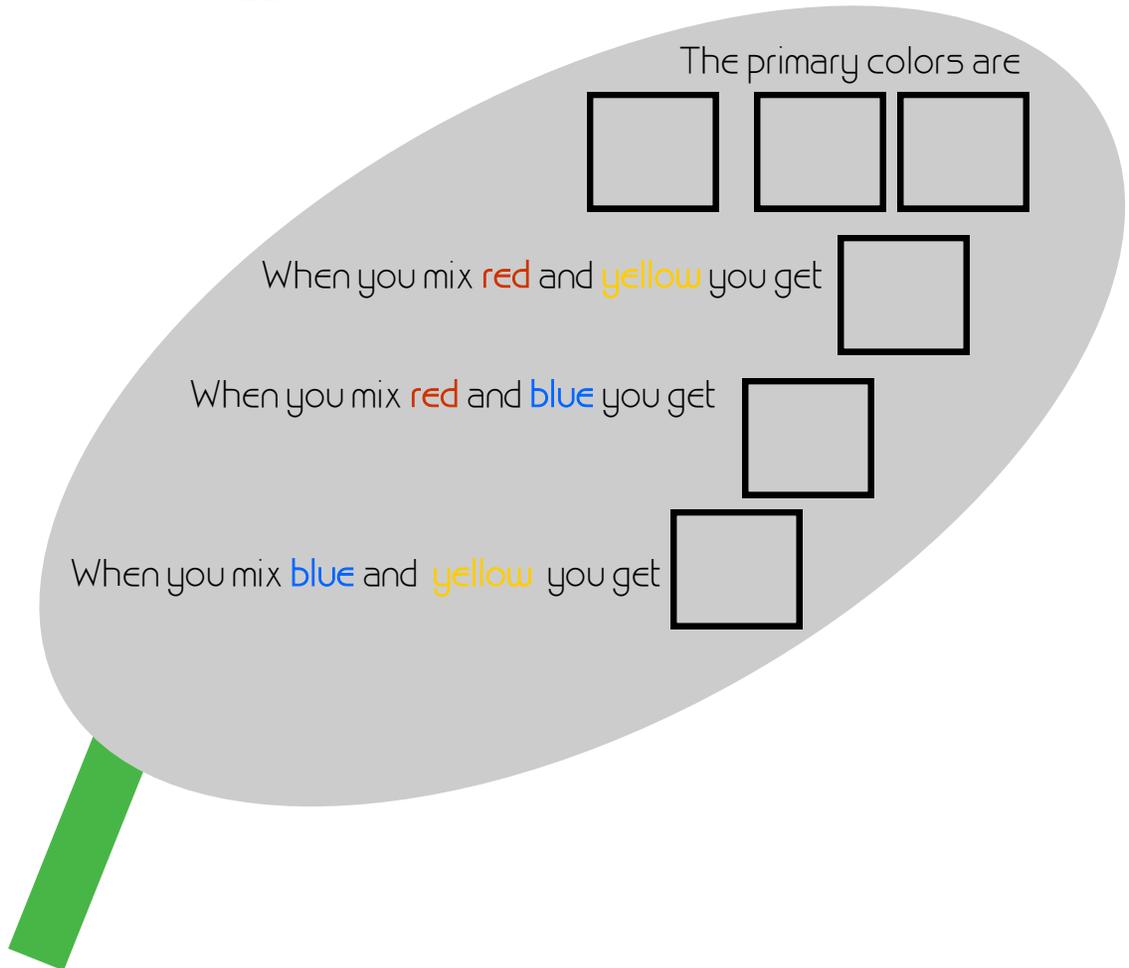

After you fill out the questions on the leaf, then glue the gray part down to your lapbook. Add the top part by adding a brad at the stem so the leaf will open and close by sliding right and left.

Answer: Primary Colors are: Yellow, Blue and Red

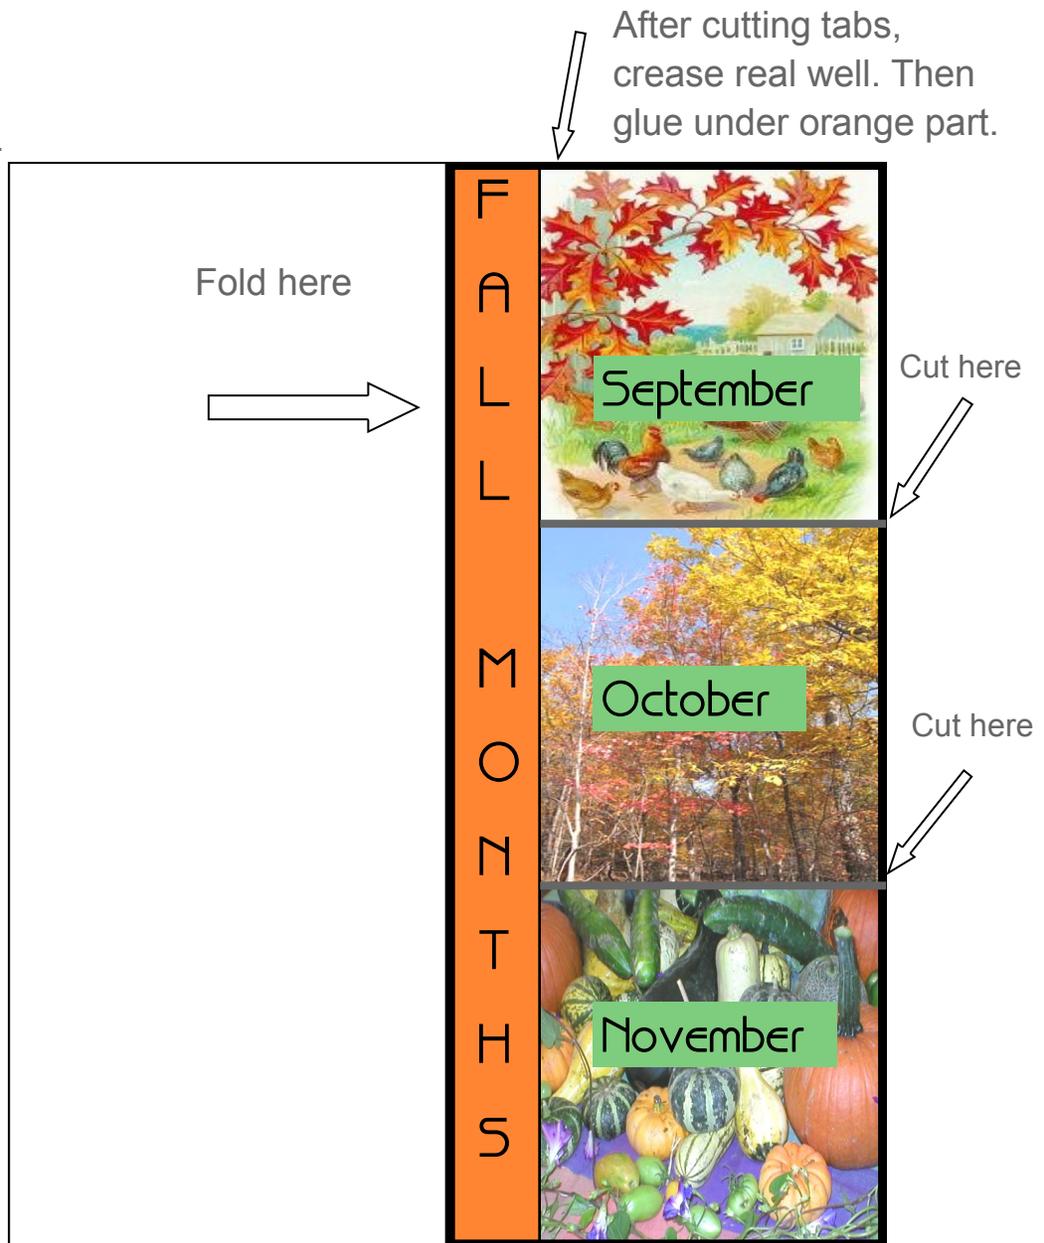

Red and Yellow make ORANGE

Red and Blue make PURPLE

Blue and Yellow make GREEN

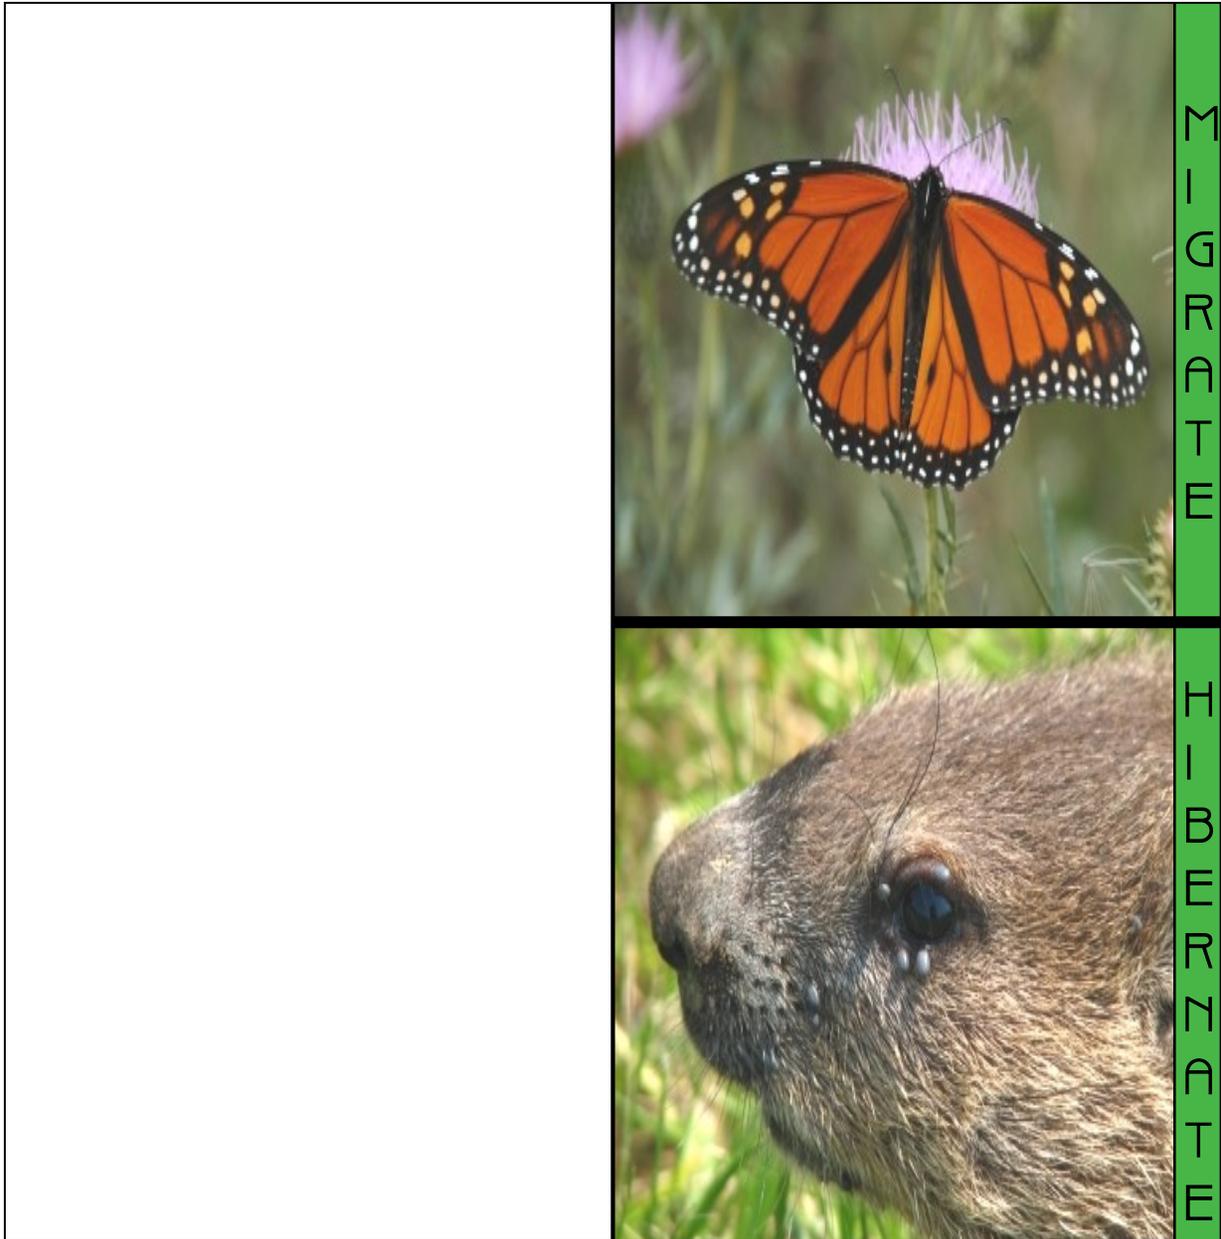

Print on white cardstock.

Be sure to not get any glue on your tabs.

Have your child draw or write under the tabs what he did during each month or what he looks forward to each season. Too, if you have a photo you can shrink and crop it to a mini size and glue in your book.

Print on white cardstock.

With the cold weather coming, some animals will migrate and others will hibernate. On the front cover, the monarch butterfly will migrate and the woodchuck will hibernate. Cut out the book on the outside lines. Then cut the book in the middle on the solid heavy black line to form two tabs that will open from right to left. Then put the animals that will hibernate under the woodchuck and the animals that will migrate under the butterfly. Note: If you have a writer then cut off the printed names on the bottom of the animal pictures on the next page and your child can practice his writing.

Print on regular paper.

Sort the animals that hibernate or sleep in the winter and the ones that migrate or move for the cold winter. Tip: Not all animals migrate North and South. Use the black line to help your little ones as a guide in cutting across.

---

			
Chipmunk	Canada Goose	Raccoon	Badger
			
Whooping Crane	Earth worm	Ruby throated hummingbird	Mouse-eared bat

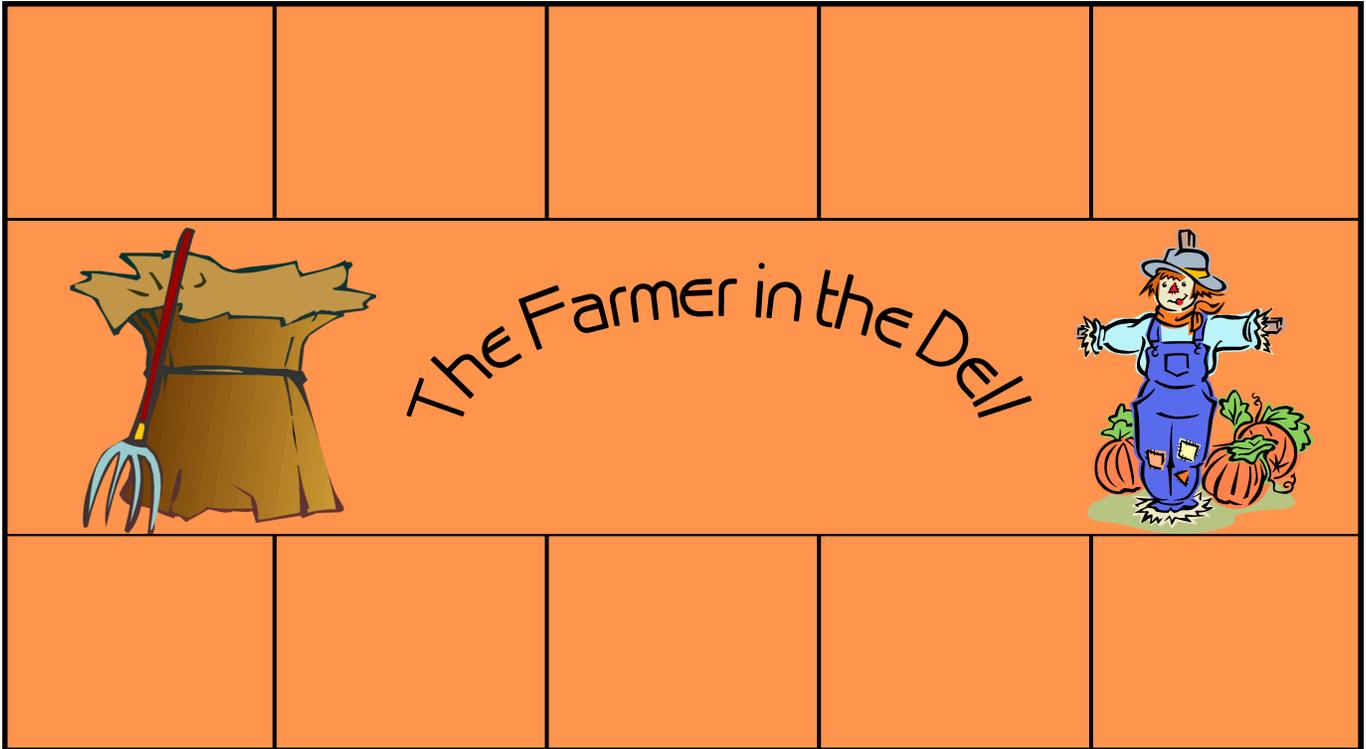

Please understand in preparing this unit and for the sake of my target age which is 4 yo to 8 yo I presented hibernation in a very simple manner as far as the kind of animals that hibernate. I feel hibernation is still very much an ongoing revelation in science. Whether you believe one animal is a true hibernator or not, please use as you need in your method of education on this topic :o)

Answers:

Hibernate: Bat, chipmunk, Raccoon and Badger

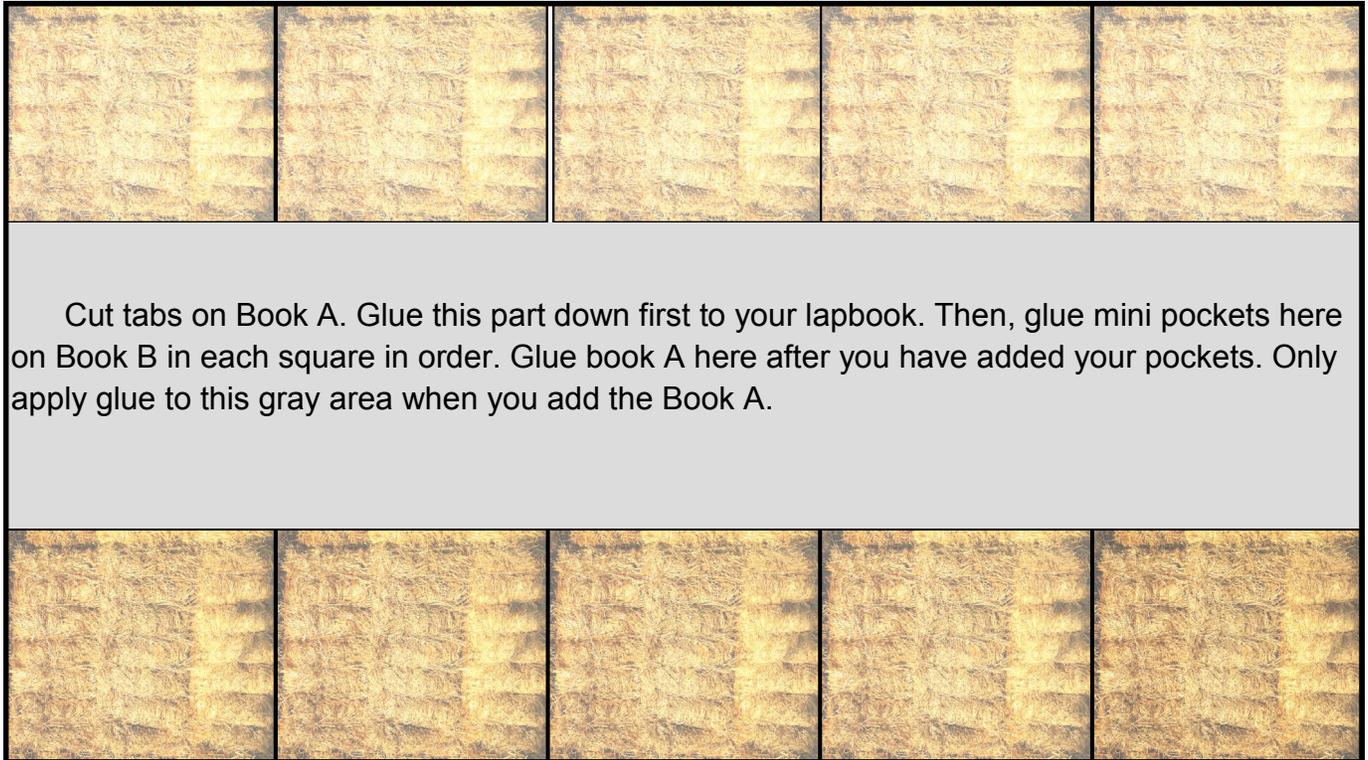

Migrate: Whooping Cranes in South Texas, Hummingbird, Canada Goose and Earthworm. The earth worm migrates up and down.

Print on white cardstock.

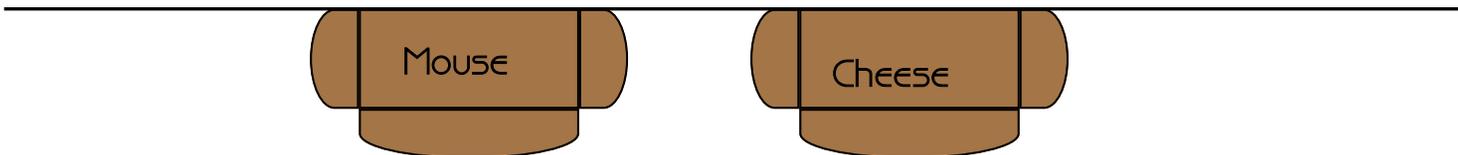

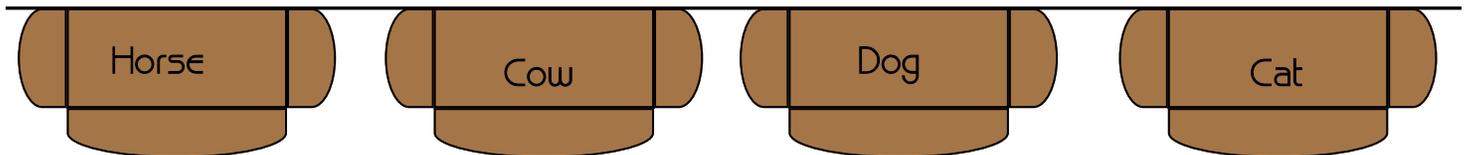

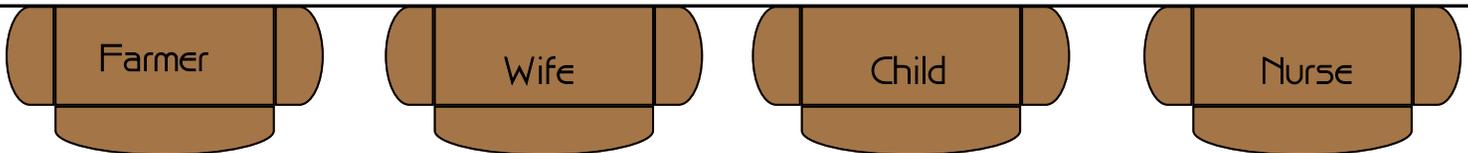

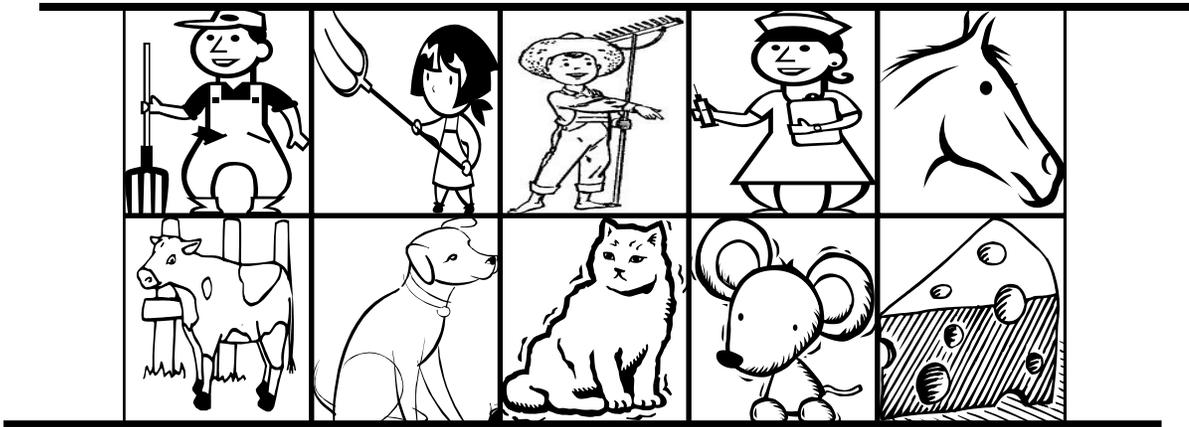

Book A

Print on regular paper.

Book B

Print on white cardstock. Use the black lines to help your little ones to cut.

This does require a little time to make these tiny pockets, but it is a resource that can be used over and over with the same child or the next one. Besides it is so much fun taking the characters out, playing with them, memorizing or using them to teach comprehension or sequencing.

Color and memorize the story puppets. I added another animal or two than some of the other lyrics :o) Go here to hear the music and just keep singing and adding as many animals as your child can think of.

## Farmer in the Dell

The farmer in the dell,  
The farmer in the dell,  
Hi-ho, the derry-o,  
The farmer in the dell.

The farmer takes a wife,  
The farmer takes a wife,  
Hi-ho, the derry-o,  
The farmer takes a wife.

The wife takes a child,  
The wife takes a child,  
Hi-ho, the derry-o,  
The wife takes a child.

The child takes a nurse,  
The child takes a nurse,  
Hi-ho, the derry-o,  
The child takes a nurse.

The nurse takes a horse,  
The nurse takes a horse,  
Hi-ho, the derry-o,  
The nurse takes a horse.

The horse takes a cow,  
The horse takes a cow,  
Hi-ho, the derry-o,  
The horse takes a cow.

The cow takes a dog,  
The cow takes a dog,  
Hi-ho, the derry-o,  
The cow takes a dog.

The dog takes a cat,  
The dog takes a cat,  
Hi-ho, the derry-o,  
The dog takes a cat.

The cat takes a mouse,  
The cat takes a mouse,  
Hi-ho, the derry-o,  
The cat takes a mouse.

The mouse takes the cheese,  
The mouse takes the cheese,  
Hi-ho, the derry-o,  
The mouse takes the cheese.

The cheese stands alone,  
The cheese stands alone,  
Hi-ho, the derry-o,  
The cheese stands alone.
